

CAB302 Sprint Retrospective

1. Please chose a template *

There are as many templates as people willing to create a new one. They all share the same goals and are used to reflect on the past week and plan for the next. You can experiment with different templates each week if you want, and decide which one serves you better. The one listed here are adapted from various online sources on Scrum and Agile practices.

- ( ) Start, Stop, Continue
- ( ) 4Ls
- ( ) DAKI
- ( ) FLAP
- ( ) Hot Air Balloon
- ( ) Sailboat
- (•) Mountain Climber
- ( ) Mad, Sad, Glad
- ( ) Starfish

Mountain Climber

One more journey template, for good measure. Here your project is a climb up a mountain, and on the journey to the top you will find delays, obstacles, and help.

2. The Summit

Did we reach our goal for the past sprint?

Yes. With a primary focus on preparing our app for presentation & implementing User feedback, we managed to clear every goal set out for us in this last sprint

3. Stormy weather

What caused delays or setbacks?

A couple group members had rather unfortunate circumstances arise that necessitated they step back, causing some stress on the remaining workload.

4. Climbing gear

What resources helped us to reach our goal?

Resources such as our communication platforms & group file sharing systems helped us keep on top of what what left & access each others work to complete what remained

5. Rocks and Boulders

What obstacles did we face?

Whiles the goals were all complete, we often found ourselves completing some of them rather late, giving rise to some rushed implementations & workflows
